

# Fly in my Email Dennis Stead

## Chili Pepper Fly

4/23/2019

This fly was created by Tony Spezio. A fly that is bright, flashy and catches fish. I am doing the tying instructions and then a YouTube video for our MSU Basic Fly Fishing Class.

Debar the hook, add lead weight, and tie down and secure the lead with your thread. Make sure you leave room between the bead and the lead. Need this area for tying off and adding a Fl. Fire Orange collar.

Add Marabou tail and pull forward to get the size you want, pinch off the excess.

Add your Krystal Flash on each side of the tail. Attach your brown hackle feather and then the tinsel Chenille. Wide the Chenille forward with touching raps. Tie off and trim the excess Chenille.

Palmer you hackle forward, spacing evenly. Tie off and trim excess. Whip finish your black thread. Now, add the Fl. Fire Orange collar.

A dab of Dave's Flex Cement on the collar and the fly is finished.

Watch my YouTube video to see it being tied.

What do you think? Let me know.
