

Fly in my Email Dennis Stead

Fur Bug (per-emerger)

6/22/2019

Everybody has a favorite or secret fly in their fly box. This fly was created by Bill Huyett and do not know if he has shared it with others. It is called the Fur Bug.

Bill makes up his own dubbing materials and here is his recipe. Knitting yarn (light coral) – 2 parts, Glo Bug yarn (peachy king) – 4 parts, and Glo Bug yarn (apricot supreme) – 2 parts. He cut them into 1/2" sections and blends them in a coffee grinder.

Other materials are:
Hook: Jig hook 1/124 oz peach color
Thread: Peach or Red 8/0

I am using a TMC403BLJ size 16 with 1/100 oz salmon color.

I put down a thread base on the hook, and create a dubbing loop, then bring my thread back to the head.

Put in my dubbing materials in the dubbing loop and dub to the front of the head, tie down the dubbing loop, cutting off the excess and whip finish. Bill said "can wrap back and forth the dubbing for thickness."

Use a dubbing brush and trim off excess. Any guess on this fly, ask Bill. bandjhuyett45@yahoo.com

Bed Spread Yarn Materials

Well I finally finished purchasing all the vintage Softball yarn I could find and ended up with 22 colors. Read the whole story on Softball Yarn for the Bed Spread Fly on our web site "Flies in my Email" the link is below.

I will be tying the Bed Spread Fly at the Branson Fly Fishing Expo and will have the Bed Spread Fly material for sale. I am going to sell 25 packages like the one on the left for \$12.00. This is made up of 22 colors and 3 extra packages to make up the 25. I want to get you tying and fishing this fly and try to get back some of my investment. If you can't wait to the expo, the Plateau Fly Shop will have some.
