

Fly in my Email Dennis Stead

Attracter Flies II on 1/64 oz - Double Eye – Hook 4/9/2020

After hearing from you and then tying myself, I decided to clean up the fly, use super glue, then powder paint it. It looks good and will not move.

Remember the Covid 19 Special. Paul used a standard TMC100 hook, put down a thread base, added Gorilla glue, and then slide on a Krystal Glo Salmon Egg. After drying, he painted the tips with red paint.

John Clouse, Springfield, MO tied an articulated fly. Never thought of that! Thanks John.

Next, Steve Fritz, Branson, MO tied a UV fly.

Jay Dzik, Waukegan, IL did a great looking fly but notice it has a bead on it. I asked him how he got the bead on over the lead, and then he told me he removed the lead, tied on the second eye with thread and UV.

Then Jay submitted another one.

Larry Wegmann, Springfield, MO tied the Pipkin Crackleback, on the 1/64 oz double eye hook and I told him it looks like a big mosquito.

Larry said, If this mosquito bit you, you would pass out for blood loss.

Waiting to receive other attracter flies tied on the 1/64 oz double eye hook.

Tell me what you think, dmstead@aol.com.

The Blob

See YouTube video – <https://www.flyfishfood.com/2019/03/the-blob.html>

Materials:

- Hook: 1/64 oz double eye hook
- Thread: UTC 140 Fluorescent Orange
- Tail: Orange Marabou
- Body: chenille material called Slush Jelly from the Frozen North Fly company. The color of the chenille is Blushing Sunburst.

Fish under a strike indicator and add a dropper fly to the second eye.

If you do not want to receive this and would like to be removed from my email, just let me know and I will remove you from my data base.
