New Spin Cast Machine

10/29/2020

Just received my new spin casting machine and thought I would like to share my excitement.

New Venture Digital
Castmach 110V
Item Number:
CZ01-NVCM

Manufactured by the Conley Casting Supply.

The spin caster was package well and weights about 100 lbs. The size is 20 x 20.

I ordered it in August and just received it at the end of October. Made in the USA and built strong.

Load your spin cast mold.

Secure the mold in place.

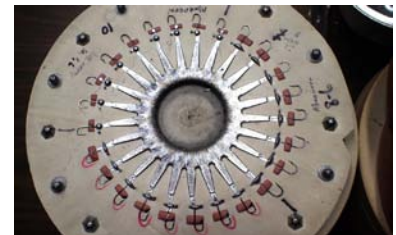

Turn on and adjust the speed.

Secure the top and pour the lead while it is spinning.

Remove your spin cast mold.

Check out my YouTube video of uncrating, set up and pouring my first mold.

Let me know what you think. Send me an email to:

dmstead@aol.com

Thanks.

If you do not want to receive this and would like to be removed from my email, just let me know and I will remove you from my data base.
